PROFESSIONAL SUMMARY

Photographer and videographer with hands-on experience in the UAE capturing and editing visual content for digital platforms, social media, advertising, corporate communications and events. Skilled in setting up and operating cameras, lenses, lighting and audio equipment for on-site and off-site assignments, and in full post-production including colour correction, cropping, retouching, sound adjustment, transitions and grading. Works from approved creative briefs and brand guidelines, delivers to the required technical quality, format and resolution, and maintains organised, labelled and archived media libraries. Uses AI image and video generation and enhancement tools alongside a conventional production workflow, applying them to concepting, retouching, upscaling and generated visual elements while keeping final output on-brand and technically compliant. Holds a Bachelor's degree in Graphic Design and a Multimedia Journalism diploma.

CORE COMPETENCIES

Photography & Videography • Camera, Lens, Lighting & Audio Setup • Studio and On-Location Shooting • Event & Corporate Coverage • Aerial / Drone Capture • Photo Retouching & Colour Correction • AI Image Generation & Enhancement • AI Video Generation & Enhancement • Generative Retouching & Upscaling • Video Editing, Transitions & Sound Adjustment • Motion Graphics • Shoot Planning & Brief Review • Brand Guideline Compliance • Format, Resolution & Technical Quality Control • File Labelling, Archiving & Digital Asset Management • Equipment Care & Maintenance • Revisions to Stakeholder Feedback

PROFESSIONAL EXPERIENCE

Photographer & Videographer

Dr Sunny Home Health Care Group | Sharjah, UAE | Aug 2022 – Present

- Capture photographs and video footage for digital platforms, social media, advertising, corporate communications and events, working from approved creative briefs, creative direction and brand requirements.
- Set up and operate cameras, lenses, lighting, audio and stabilisation equipment (DSLR, drone, gimbal) across studio, on-site and off-site assignments.
- Assist in planning shoots by reviewing briefs, identifying equipment requirements, and preparing production materials, locations and shot lists ahead of filming.
- Edit stills and footage end to end: culling, cropping, retouching, colour correction and grading, sound adjustment, transitions and export.
- Ensure every deliverable meets the required technical quality, format, resolution, branding and creative standards for print, large-format, web and social output.
- Organise, label and archive photo and video files using consistent naming conventions and metadata, supporting efficient retrieval and proper digital asset management.
- Maintain cameras, lighting and audio equipment in good working condition, monitor kit status and report issues as identified.
- Deliver revisions and adjustments to photographs and videos based on stakeholder feedback through to final approval.
- Work with marketing, copywriters and external production partners to understand content requirements and deliver assigned visual materials on schedule.
- Generate and enhance imagery and video using AI tools for concepting, retouching, upscaling and background elements, integrating the output into standard production so deliverables remain consistent with brand guidelines.
- Keep current with emerging photography, videography and AI production techniques, introducing tools that reduced production time by approximately 25%.

Photographer & Videographer

Festival Land Ajman | Ajman, UAE | May 2021 – Aug 2022

- Covered events, activations and academy programmes across multiple branches, on-site and off-site, producing photography and highlight videos for marketing and corporate communications.
- Shot in busy public environments, managing changing light conditions, crowds, access constraints and tight turnaround schedules.
- Edited stills and footage to brand standards and prepared assets to the correct specifications for print, large-format outdoor signage and social platforms.
- Created motion graphics and animated content that extended still photography into video and social formats.
- Supported content planning and visual storytelling that strengthened audience engagement across the brand's channels.

EDUCATION & TRAINING

Bachelor's Degree in Graphic Design — Homs University, Homs, Syria | 2021

Multimedia Journalism Diploma — Focus Academy, Dubai, UAE | 2022

Training covering photography, videography, visual communication and multimedia production.
